

INDEPENDENT ELECTORAL AND BOUNDARIES COMMISSION

PRESS RELEASE

FOR IMMEDIATE RELEASE

SUBJECT: UPDATE ON MASS VOTER REGISTRATION (MVR) WEEK 3

NAIROBI: Tuesday, February 7th, 2017

1. MVR data

The Commission recorded 2,164,185 applicants for registration as voters in the third week of the month long campaign. This is only half the weekly target (50.54%).

2. Clarification on eligibility for registration

The IEBC undertook fresh registration from **19th November, 2012**. Anyone who registered between that date and now is in the register and does not need to register again. This includes those who voted in the 2013 General Elections.

3. MVR for Universities and Colleges

The Commission plans to register the youth in institutions of higher learning from 8th -14th February, 2017. The target institutions are those with students from various parts of the country. To succeed in this exercise, the Commission relies on the support of the administration of these institutions and the respective student leadership. The students will be allowed to register for any registration centre of their choice countrywide. The list of institutions and the BVR kits allocated have been published at the Commission's website.

3. Registration of Prisoners and Diaspora

The Commission will register Prisoners in all the 118 prisons from 20th -27th February, 2017. The Commission has developed regulations that will see Prisoners vote only for the Presidential seat in the 2017 General Elections.

On Diaspora participation, the Commission will register voters in the four East African countries (Uganda, Tanzania, Burundi and Rwanda) and South Africa. Considering the logistics and constraints of time, the Commission saw it prudent and tenable to start with these countries. The law allow for progressive registration and voting by Kenyans in the Diaspora and more countries will be included in future.

4. MVR in By-election areas

By-elections will be conducted in Maji Mazuri/Mumberes (Eldama Ravine, Baringo) on 22nd March, 2017. The Commission will declare Mr. Jaoko Alex of ODM the winner in Kanyamkago Central (Uriri, Migori) since he is the only candidate.

Voter registration will start immediately in Kanyamkago while in Maji Mazuri/Mumberes, voter registration will start shortly after the end of the MVR campaign on 14th February.

5. Shared IDs

The Commission wishes to confirm that out of 128,926 voters reported as sharing ID numbers in the register, a total of **50,174** National Identification Numbers were confirmed to be legitimate and hence accepted as part of the register. The Commission has now published the remaining 78,752 voters with shared National Identification Numbers. The list includes **21,149 records** that bear the same ID numbers and same names and **57,603 records** whose ID numbers did not match the National Registration Bureau records we had submitted for verification.

Persons whose names are listed are requested to visit the IEBC Constituency offices where they were registered to verify and correct any discrepancies that may exist. Those who will not have verified and corrected their records within 10 days from **February 6, 2017**, run the risk of having their names being expunged from the register of voters.

The details of the shared identification numbers may be accessed at www.iebc.or.ke or at the Commission's constituency offices across the country.

6. The making of a register of voters

After the registration of voters all enrollments will go through a process of matching which is the comparison of the finger prints and the details of the voter (names, ID nos, address). The matching process is to ensure that no one is registered more than once. This gives a preliminary register of voters which is used for inspection of the register. The inspection period runs for one month from 10th May to 10th June, 2017. This initial register will be printed and availed in all registration centres for voters to confirm the

correctness of their details. IEBC officials will avail forms for changing particulars for those who may find errors in their details. After all corrections are done, the register is certified and availed to the public including posting on the Commission's website.

Conclusion

The Commission is putting all efforts to deliver credibility and convincing polls. In doing so, it will continue to involve and inform all stakeholders to ensure there is common understanding and positive contribution towards the process.

We urge all those who have not registered to do so in this last week. As stated before, the exercise closes on 14th February and there will not be any extension.

Ezra Chiloba
Commission Secretary/ CEO
