SECURITY CONCERNS ON VOTER REGISTRATION IN MANDERA EAST CONSTITUENCY

NAIROBI: Thursday, February 2, 2017 - The Commission fears that three BVR kits may have been lost in the Arabia town attack, Mandera East Constituency. However, the Commission does not expect any data loss owing to the instituted back-up procedures. Further, the information contained in the BVR kits is encrypted and therefore not accessible to anyone other than IEBC.

We still do not have full details on this unfortunate incident owing to communication challenges in area. We are however in touch with the security agencies who are helping us ensure the safety of our staff.
