

STATUS UPDATE ON GENERAL ELECTION 2022 – 10TH AUGUST, 2022

Good afternoon.

Ladies and gentlemen.

Welcome to today's briefing on the 2022 General Election.

1. The Commission appreciates Kenyans for continued patience as it continues to collate and tally results.
2. As you are aware, elections in Eldas Constituency - Wajir County were adjourned yesterday due to security reasons. We are happy to report that voting in the Constituency commenced today at 6.00am.
3. The Commission yesterday adjourned election at the Didaage primary school polling station in Garsen Constituency after experiencing logistical and technical challenges. Voting commenced today after the Commission addressed the challenges and authorising the use of the manual register for the 569 registered voters.
4. Results transmission of form 34A from the polling stations is ongoing as you can see on the screens. The information is also available on our public portal on the website. As at 2.30pm, the transmission is at 97.4 percent representing 45,038 out of 46,229 polling stations.
5. Collating and announcement of results at the Constituencies is underway. Once the Returning Officers complete the process, they will physically deliver to the National Tallying Centre form 34As and 34Bs after declaring

results for Member of National Assembly and Member of County Assembly.

6. At the National Tallying Centre, the following activities will take place:
 - a) Verification of transmitted image of results Form 34As against original Form 34As.
 - b) Verification of constituencies Form 34Bs against their respective original Form 34As,
 - c) collation of Form 34C and confirmation of Constitutional threshold of 50 percent plus one vote and 25 percent of majority counties, declaration of Presidential results, and issuance of certificate to the President-elect.
7. The Commission wishes to inform the country on the following incidences:
 - a) Result form 35A from Rakwaro market polling station, Rongo Constituency – Migori County was erroneously transmitted to the Presidential results portal. The Commission will wait for the original form 34A from the Returning Officer, validate it with the Presidential agents and thereafter replace the said image in the portal.
 - b) Two incomplete form 34Bs from Ainabkoi Constituency – Uasin Gishu County and Saboti Constituency – Transzoia County were erroneously uploaded in the Commission’s portal. The Returning Officers for the respective constituency will upload the correct form 34Bs after completion of the form 34Bs and upon signing with the Agents.
8. Results announced at the polling station are final.

Conclusion

9. The law requires that the Commission undertakes verification of the Presidential election results and declare the President-elect within seven (7) days. However, the Commission shall endeavor to conclude this exercise at the earliest possible.
10. The Commission calls for patience as it undertakes this exercise.

God Bless You and God Bless Kenya.

W. W. CHEBUKATI
CHAIRMAN
