About this Report

This Report outlines the performance of the Independent Electoral and Boundaries Commission (IEBC) for the financial year ending 30th June, 2022. It informs Kenyans – including Members of Parliament, Political Parties, Candidates, Special Interest Groups, Government Departments and Agencies, Development Partners, Media and all electoral stakeholders about activities undertaken and services provided by IEBC in the year under review.

The report describes the Commission's performance against its programs, deliverables and key performance indicators in line with the budgetary allocation for the financial year 2021/2022.

The report adheres to the requirements of Article 254 of the *Constitution of Kenya, 2010*, the Public Finance Management Act, 2012 and the Independent Electoral and Boundaries Commission Act, 2011.

The Report has four Sections:

1. **Preamble** – Chairman's foreword, CEO's overview and highlights for the year under review.
2. **About IEBC** – Our mandate, organisation structure and programs.
3. **Performance Report and Achievements** – Work and achievements for each IEBC program with key performance indicators.
4. **Financial Reporting** – Financial performance for 2021/2022, includes unaudited financial statements.

These sections are supported by annexes highlighting particular developments, activities and outcomes.

An electronic copy of this Report is available on the IEBC website: <https://www.iebc.or.ke/resources/Publications>.

Section 1: Year in Review

Foreword

I am happy to share with you the Annual Report of the Independent Electoral and Boundaries Commission for the Financial Year 2021/2022, which caps my six-year tenure as Chairman of the Commission. The Report sheds light on what we have collectively undertaken, to keep our country on the right footing as we move it towards a stronger democracy.

During the year under review, the Commission was engaged in a range of activities that had direct impact on the successful conduct of the August 9th, 2022 General Election. These activities were conducted in collaboration with our strategic partners and relevant stakeholders to enhance inclusivity and public participation. Key among these activities was the roll out of Enhanced Continuous Voter Registration (ECVR) I and II at the ward level from 4th October to 5th November 2021 and from 17th January to 6th February 2021 respectively. The two exercises availed an opportunity for all eligible citizens to register as voters and exercise their political rights as provided for under Article 38 of the Constitution of Kenya. Furthermore, the decision in **Petition No. 25 of 2014 Independent Electoral & Boundaries Commission vs New Vision Kenya (NVK Mageuzi) and 4 others (2015) eKLR** directed the Commission to put in place infrastructure for the comprehensive registration of Kenyan citizens in the Diaspora as voters, to the intent that the numbers of such Kenyan citizens participating in the general election shall increase progressively over time. Pursuant to the said decision and Article 82(1)(e) the Commission added to the existing registration centres in the Diaspora (Tanzania, Uganda, Rwanda, Burundi and South Africa) the following seven new countries: United States of America (USA), United Kingdom (UK), Canada, United Arab Emirates, Qatar, Germany and South Sudan. The registration was conducted in Kenyan Embassies, High Commissions and Consulates in the respective countries.

The Commission also conducted verification of biometric data of voters by deploying KIEMs kits at the ward level, and providing a short message service (sms) and website portal (**verify.iebc.or.ke**) where voters could check their registration details. Later, the Commission procured the services of KPMG to conduct an audit of the Register of voters and its recommendations were incorporated in its preparation. After the cleanup, the Commission produced an updated Register of 22, 120, 458 voters with 46,229 polling stations.

In addition, the Commission held the National Election Conference (NEC) on 11th and 12th July 2022 at the Kenyatta International Convention Centre. The Conference, that drew participants from the Election Management Bodies (EMBs) of South Africa, Ghana, Zambia, as well as partners, stakeholders and experts in the electoral process, discussed experiences in election management under the theme “Moving Kenya Towards a Stronger Democracy”.

To enhance transparency, public participation and stakeholder engagement in the electoral process, the Commission collaborated with relevant stakeholders within the confines of the law. The Commission in partnership with the National Police Service implemented the Election Security Arrangement Programme (ESAP) whose overall aim was to ensure coordinated security management for a peaceful election

environment. The Commission and the National Police Service cascaded training on election security down to the constituency level that enabled the election staff and the security sector harmoniously work towards ensuring elections are conducted peacefully within their respective jurisdictions. The Commission similarly held consultations with the Judiciary through the Judiciary Committee on Elections and discussed ways of bettering the various processes of election dispute resolutions including sensitization of Judicial Officers on the election process.

In addition, Commission institutionalized scrutiny of its conduct, processes and procedures through various mechanisms that are anchored in law including observation and monitoring of elections. Through its automated Accreditation Management System (AMS) the Commission accredited domestic and international observers to undertake election observation on long and short-term for all electoral processes. The Commission equally engaged the media in order to ensure a quick flow of information in election reporting to the public. The Commission and the Kenya Media Sector Working Group (KMSWG) established the IEBC-KMSWG Joint Taskforce to sustain collaboration efforts between the two institutions. This resulted in a tripartite signing of a Memorandum of Understanding (MOU) by the Commission, Kenya Editors Guild and Kenya Union of Journalists that enabled training of media practitioners on elections and promoting access to electoral information for accurate reporting.

In conclusion, I wish to remind my fellow countrymen that we have a collective responsibility to protect the gains made towards the realization of a stronger democracy. I thank all our stakeholders and partners for the support and cooperation accorded to the Commission for the year under review and look forward to their continued assistance.

God bless Kenya.

W.W CHEBUKATI

CHAIRPERSON

The Commission Secretary's Overview

This annual report for the Financial Year 2021/2022 depicts in detail activities done during the prescribed timeframe, specifically on the implementation of the first year of the Commission's Strategic Plan 2020-2024, which has six precise pillars that include strengthening corporate governance, strengthening strategic operations, strengthening legal framework, enhanced public outreach, effective conduct of elections and equitable representation.

Generally, the Commission was successful in conducting six by-elections, which were occasioned by the death of office incumbents despite the adverse effects of Covid-19

Pandemic. This thrusts to the fore the quick implementation of the Strategic Plan 2020-2024, where the Commission moved out and rolled the Enhanced Continuous Voter Registration (ECVR). This is a crucial exercise in the run up to the August 9th, 2022, General Election.

Moreover, the Commission held consultative processes to update the electoral geodatabase in preparation for the delimitation exercise as outlined in the Boundary Review Operations Plan, 2019-2024. During the review period, the Commission undertook the sub-locations boundary data collection exercise, which is critical in the delimitation of electoral boundaries. As a result, the Commission updated its electoral geodatabase in 38 Counties. The exercise revealed that 1,864 gazetted and operationalised sub-locations have been delimited since 2012. This number is expected to rise once the sub-location boundaries data is collected for the remaining nine counties.

In our quest to improve operation processes in the year 2021/2022, the Commission developed Standard Operation Procedures, Policies and Manuals to have a co-ordinated approach in the implementation of Commission, mandate, activities and programmes.

More so, the Commission is committed to attract, develop, and retain highly skilled and motivated staff to implement its mandate. During the Fiscal Year 2021/2022, the Commission advertised, conducted interviews, and recruited competent staff in critical positions within its establishment including that of Commission Secretary/CEO and two Deputy Commission Secretaries for Election Operations and Support Services. This is besides the appointment of the Directors for Information and Communication Technology, Legal Services, and Research, Electoral Boundaries and Risk Management respectively.

Going forward, the Commission has adopted modern and dynamic styles to guide in its registration of voters, communication and management of its daily operations as per world's best practices. Moreover, as part of its Corporate Social Responsibility (CSR), the Commission was involved in conduct of several primary schools, High schools, tertiary and the Law Society of Kenya elections. These activities and elections, at the grassroot level, provide the Commission with the human touch to serve the community, and in the process, be able to enhance its voter education and instill democratic principles to our children at early ages.

In conclusion, it is imperative to note that operations of Commission activities are hinged on the funding from the National Treasury, however, such has of late been curtailed by long delays leading to slow down in some of the projects that are time bound. My appeal to the Government is to fast-track funds provisions throughout the electoral cycle to enable the Commission to fulfill its constitutional mandate.

We are also cognizant and indebted to the efforts and support of our staff, stakeholders and partners, which has enabled the Commission to implement its work plan within the set timelines.

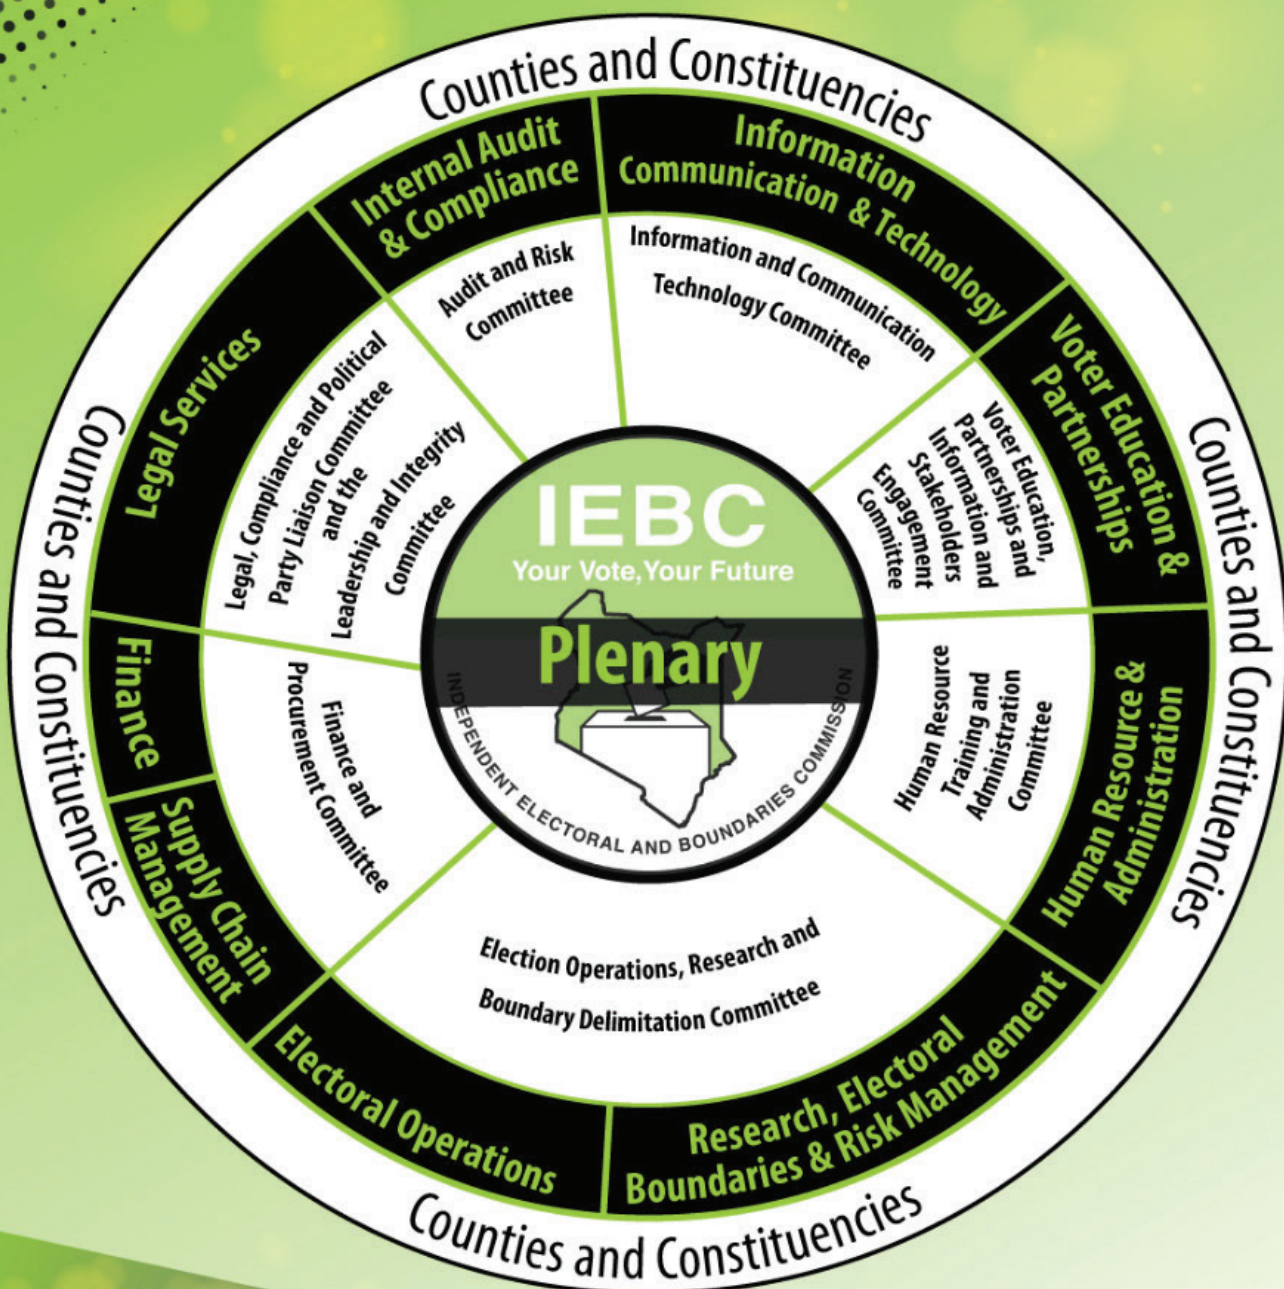

I beseech everyone to consider reading this 2021/2022 Annual Report in order to familiarise with the Commission's activities, achievements and challenges, which may impact on the conduct of the forthcoming August 9th, 2022, General Election and the Electoral Boundaries Delimitation Exercise.

Marjan Hussein Marjan

Commission Secretary/Chief Executive Officer.

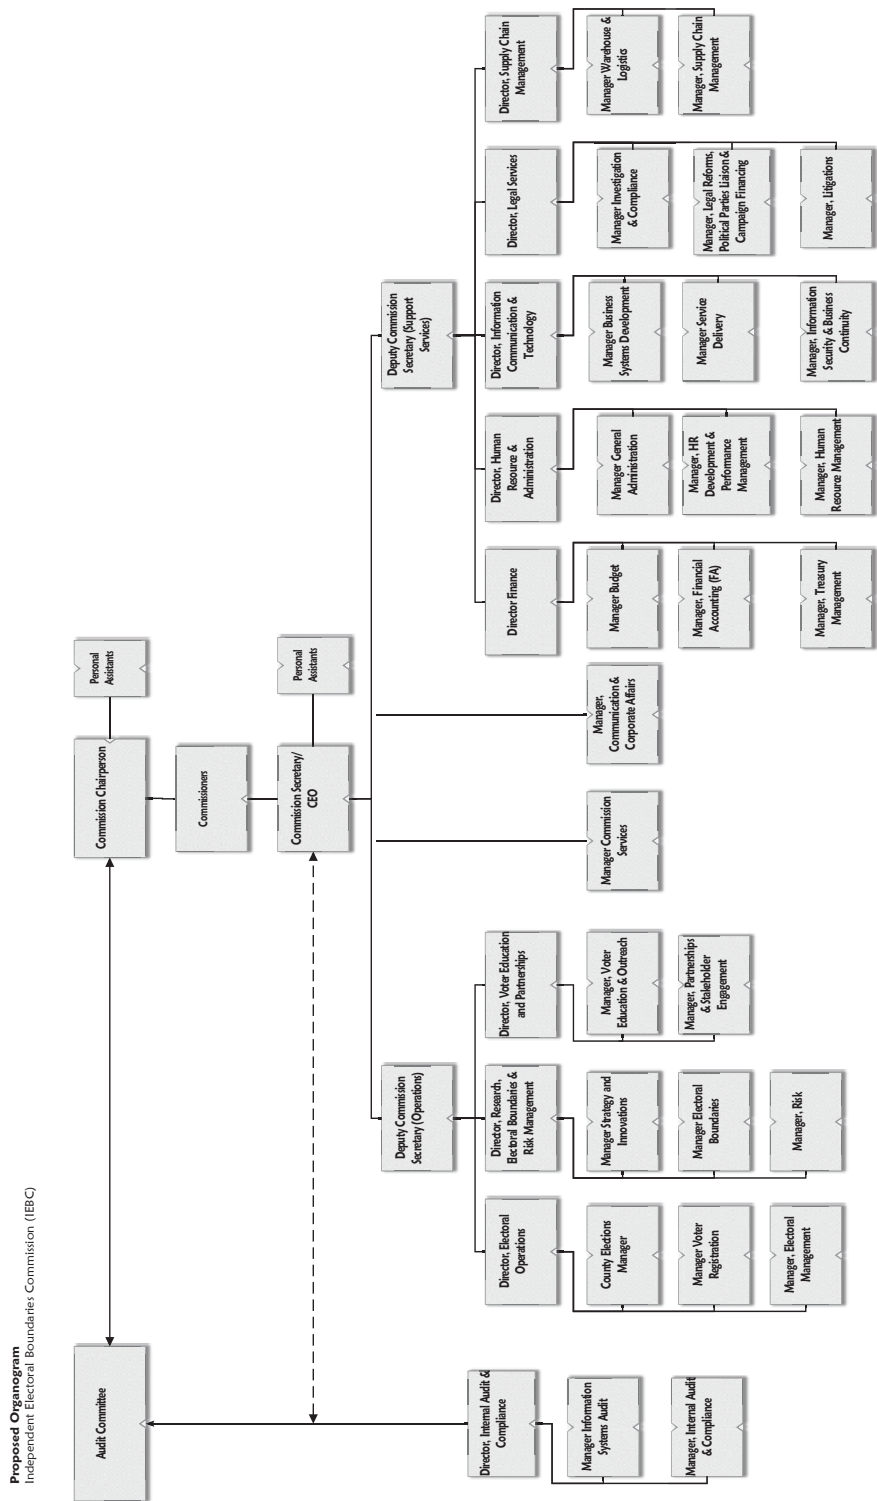

Figure 1: Organisation Structure

2.6 The Commission Governance Structure

The Commission governance structure comprises of the Plenary (Board) and Committees.

2.6.1 Plenary

The Plenary consists of the Chairman and the six Commissioners. In order to execute its constitutional mandate, the Plenary has scheduled monthly meeting. In the year under review, the Commission held 18 meetings.

2.6.2 Committees

There are seven Commission Committees that are responsible for decision on policy issues. The Committees' decisions are presented to the Plenary for approval. The Committees are chaired by Commissioners with exception of the Audit and Risk Committee that is chaired by an external person appointed from outside the Commission. Directors attend the relevant committee meeting on invitation. In the year under review, a total of 24 Committee meetings were held. Figure 2 shows the Commission's Committees.

2.7 The IEBC Strategic Plan 2020-2024

The 2020-2024 Strategic Plan is hinged on six Strategic focus areas as shown in Figure 3. In order to operationalize the strategic plan, the Commission developed the Elections Operation Plan, the Boundaries Review Operation Plan, Standard Operating Procedures (SOPs) and Manuals that guide the day-to-day activities of the Commission.

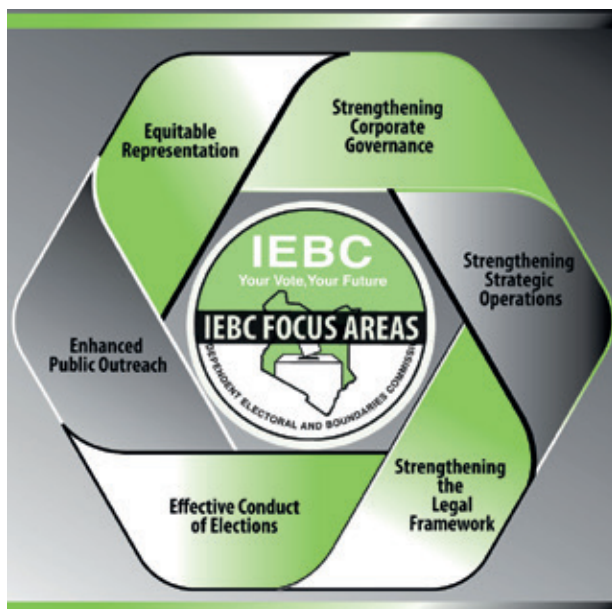

Figure 2: Focus Areas of the 2020-2024 IEBC Strategic Plan

The Election Operation Plan (EOP)

The EOP is a key navigation instrument to steer the execution of key electoral activities in the 2022 General Election. It provides implementation schedules, activities and timelines.

Boundaries Review Operation Plan (BROP)

The BROP details procedures, processes, tasks, activities, timelines and the budget for the electoral boundaries delimitation exercise.

Standard Operating Procedure and Manuals

Standard Operating Procedures (SOPs) and manuals: these are written procedures and instructions that describe the step-by-step process that must be taken to properly perform a routine activity in the Commission so as to ensure consistency and compliance with industry regulations and business standards.

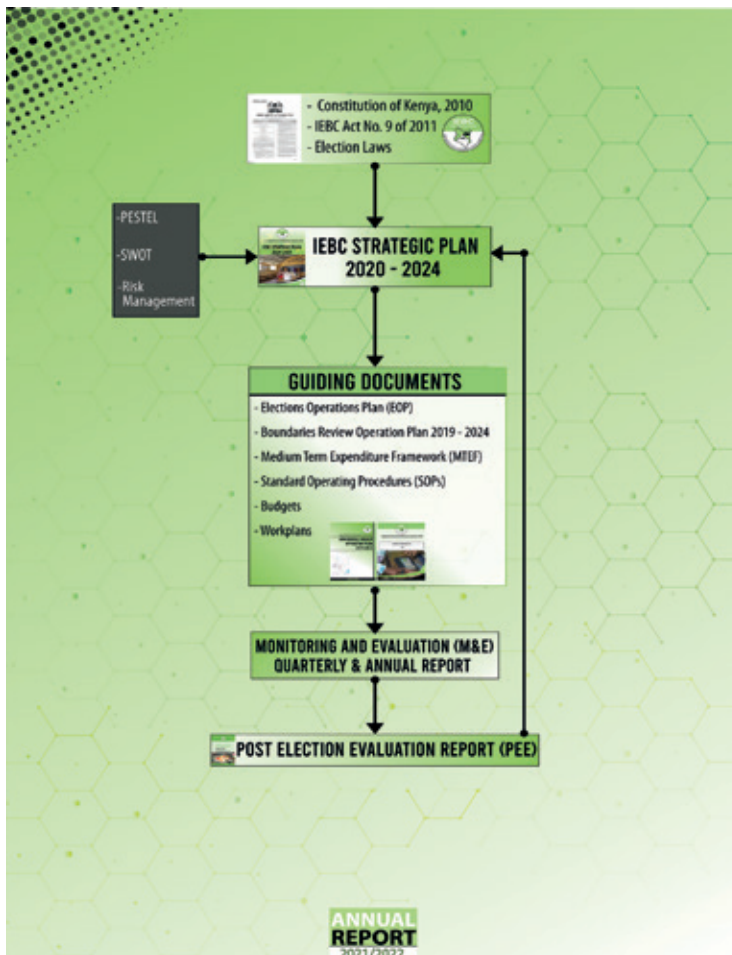

Figure 3: IEBC Planning and Reporting Framework

2.8 Structure of the IEBC Programmes

The Commission endeavors to achieve the following strategic outcomes:

Outcome 1: Meet the democratic aspirations of the people of Kenya.

Outcome 2: Equitable representation and sustainable democracy.

The outcomes are realized through the two Commission programmes as shown in Table 2.

Table 2: Structure of the IEBC Programmes

Programme 1. Management of Electoral process in Kenya	Programme 2. Delimitation of electoral boundaries
Objectives	Objectives
To deliver free, fair and credible elections	To promote equity in representation and participation in the electoral process

These programmes are realized through the Commission's Key result areas namely;

- (i) Strengthening Corporate Governance,
- (ii) Strengthening Legal Framework,
- (iii) Effective Conduct of Elections,
- (iv) Public Outreach, Effective Voter Education and Strategic Partnership, Collaboration and Communication,
- (v) Equitable Representation, And
- (vi) Strengthening Strategic Operations.

In the next section, the report presents the Commission's performance based on the six key result areas.

Section 3 - Performance Information by Programme

SECTION 3: PERFORMANCE INFORMATION BY PROGRAMME

3.1 Key Result Area#1: Strengthening Corporate Governance

The Commission is accountable to the public and stakeholders through Parliament for ensuring that it complies with the highest standards of corporate governance and operational ethics. The Commission embraces corporate governance by promoting the right corporate culture and values.

The Commission delegates certain functions to committees without abdicating its own responsibilities. The Commission has a committee structure that assists in the execution of its duties, powers and authorities. The Committees are appropriately constituted drawing membership from amongst the Commissioners with the appropriate set of skills and experience, and directors co-opted from various directorates.

Figure 2: Committees

(a) Commission Policy decisions

During the period under review, the Commission held 11 management meetings followed by committee meetings whose resolutions were passed on to the Plenary (Board) for approval. The Plenary held 17 meetings that culminated into strategic policy decisions. Key policy decisions resolutions included:

- (i) The expansion of diaspora registration centers and use of IDs during Diaspora voter registration.
- (ii) Signing of MoUs with stakeholders such as Sign TV, Kenya Media Stakeholder working groups.
- (iii) Updating of sub-location geodatabase in 38 counties in preparation for electoral boundaries delimitation set for the next financial year.
- (iv) Two enhanced continuous voter registration (ECVR) drives.

(b) Internal Audit

Internal Audit is tasked with a responsibility of providing independent Assurance objective and consulting activities designed to add value and improve processes and operations of the Commission by evaluating the effectiveness of risk management, control and governance process.

During the year under review, the audits for various activities and processes were conducted as shown in the Table 3.

Political Party Regulation

The Constitution of Kenya confers upon the Commission the mandate to regulate the process by which Political Parties nominate candidates for elections and the amount of money spent by candidates and political parties in an election.

The Commission's Directorate of Legal Services is the focal point for liaison with the Office of Registrar of Political Parties (ORPP) and Political Parties. This facilitates the regulation of Political Parties on electoral matters, either directly or through the Registrar of Political Parties and the Political Party Liaison Committee (PPLC). PPLC is the established platform for dialogue between all registered Political Parties, ORPP and the Commission at the National and County levels.

Emerging issues and targeted concerns are addressed through PPLC meetings, which are held quarterly. The PPLC currently performs its functions through the National PPLC which comprises six sub-committees namely: Finance; Legal and Dispute Resolution; Internal & External Affairs; Civic, Political Education, & Publicity; Electoral Process; and Audit & Compliance.

Against this backdrop, the National PPLC with the support of the ORPP enables the various Committees to draw work plans. The Commission offers technical support to the various committees based on the Commission's roadmap.

During the year under review, the Commission enhanced collaborative engagements with PPLC to discuss *inter-alia* election-related issues and review of laws governing the regulation of Political Parties in election processes as shown in Table 14.

Electoral Dispute Resolution

Electoral Dispute Resolution is a critical component in the electoral cycle. Lack of proper judicial and administrative mechanisms established to adjudicate electoral disputes impacts directly upon the extent to which elections are considered free and fair.

The Commission aspires to put in place an effective electoral dispute resolution mechanism as governed by the provisions of Article 88(4), (e) and (j) of the Constitution in respect of the settlement of disputes relating to or arising from nominations and determination of violations of the Electoral Code of Conduct.

During the period under review, the Commission received, heard and determined complaints during the Registration of Candidates for the General Election.

Equity in Representation in Parliament and County Assembly levels

The *Constitution of Kenya, 2010* prescribes for the promotion of the representation in Parliament and County Assemblies of women, persons with disabilities, youth, ethnic and other minorities and marginalized communities in the process of nominating candidates for election.

Article 90 of the *Constitution of Kenya, 2010* bestows upon the Commission the responsibility to conduct and supervise elections for special seats based on

proportional representation by use of party lists. Section 36 of the Elections Act, 2011 consequently, provides that the Commission shall allocate special seats in each of the Assemblies based on the proportional seats a Party obtained in that respective House.

During the year under review, the Commission received Party Lists from a total of seventy-nine (79) out of eighty-three (83) political parties for allocation based on the proportional seats each of the political parties would get in that respective House.

Challenges and Lessons Learnt

In the year under review, the Commission experienced several challenges that had an impact on its processes and service delivery. The Risk Management framework put in place helps identify and proposes mitigating measures for future improvement: Table 15 highlights issues, challenges and lessons learnt.

Table 15: Challenges and Lessons learnt

3.3 Key Result Area#3: Effective Conduct of Elections

The Commission is responsible for managing electoral processes which include Voter registration, Electoral operations and logistics, electoral training and coordination of field services. This entails a series of inter-related pre, during and post-election activities geared towards attainment of free, fair and credible elections. During the period under review, the Commission's achievement is shown in Table 17.

Voter Registration

The Commission is legally required to establish a comprehensive, accurate and complete register of voters that confers legitimacy of the entire electoral process.

Electoral Operations and Logistics

Electoral operations are key aspects in the conduct of elections and related logistical requirements. It determines efficient and effective conduct of electoral activities such as the management of electoral materials and logistics.

Electoral Training

Electoral training is an integral part of the electoral processes, and the Commission heavily invests in electoral training as a way of ensuring effective and efficient electoral processes. Through training, personnel have been prepared for elections, registration of voters, inspection and verification of the register, nomination of the candidates for elections, among other electoral activities.

In preparation for the forthcoming General Election, the Commission conducted cascaded training for its poll officials. The training was implemented in six different levels as shown in Table 18:

3.4 Key Result Areas#4: Public Outreach

The Commission engages stakeholders and partners in electoral processes; designs, develops and disseminates voter education information to enhance public participation, and instill public confidence throughout the electoral cycle.

Cognizant of the need to tell its own story, the Commission has progressively improved internal and external strategic communications, coordination of corporate events, and corporate reputation management. Moreover, the commission has endeavored to give back to the communities through corporate social responsibility activities to improve brand visibility and strengthen existing relationships. Concomitantly, it gives the public the opportunity to relate and engage with the Commission activities.

To achieve this, the Commission conducted stakeholder forums, entered strategic partnerships, voter education activities, disseminated voter education messages using radio presenter mentions, brochures, posters and radio talk shows. This was aimed at informing and encouraging voters to participate in electoral processes.

Table 22 highlights the key achievements for the year under review.

3.5 Key Result Areas#5: Equitable Representation

The Constitution of Kenya; Article 89, provides for the review of names and boundaries of constituencies and wards at intervals of not less than eight years, and not more than twelve years, and a Review must be completed at least twelve months before a General Election of members of parliament. The First Review under Constitution of Kenya, 2010 was undertaken in 2012, thus, the Second Review of boundaries will be completed by 2024.

During the period under review, in preparation for the Electoral Boundaries' Delimitation the Commission undertook the following activities.

(a) Boundaries Delimitation

The Commission embarked on updating of sub-location base data in collaboration with the Ministry of Interior and Survey of Kenya. It involved updating of the boundaries of existing Sub locations in order to align it with the electoral boundaries and ensure accurate geo-database in preparation for the upcoming boundary delimitation.

The update of the Sub Location was undertaken in 38 Counties namely; Machakos, Embu, Mombasa, Kwale, Taita-Taveta, Kilifi, Lamu, Tana River, Kitui, Makueni, Nakuru, Kajiado, Kisii, Murang'a, Narok, Kiambu, Kirinyaga, Meru, Isiolo, Laikipia, Baringo, Samburu, Tharaka Nithi, Nyeri, Nyandarua, Kericho, Bungoma, Kakamega, Uasin Gishu, Nandi, Busia, Siaya, Migori, Nyamira, Elgeyo Marakwet, West Pokot, Homabay and Kisumu.

The exercise revealed 1,864 additional Gazetted and operationalized sub-locations since 2012 as shown in Table 23.

Table 23: The number of current sub-locations in the 38 counties completed

2012 Sub-Locations	2021 Sub-Locations	Current Sub-Locations
5,605	7,469	1,864

The remaining nine (9); Garissa, Wajir, Mandera, Marsabit, Turkana, Trans Nzoia, Bomet, Vihiga and Nairobi County will be completed in the next financial year. Figure 5 shows the status of sub-location data collection by county.

Figure 5: Current status of sub-locations boundary data collection by county

(b) Registration Centres GPS Co-ordinates

Registration centres GPS coordinates are physical locations points of facilities such as schools, markets and health centres. A registration centre is Gazetted under a County, Constituency and County Assembly Ward. The physical positioning and allocation of registration centres are of utmost importance in the electoral process as they enable the voter access registration and voting at the nearest facility to exercise their democratic rights. It also informs planning, logistics and result transmission for the General Election.

Consequently, in preparation for the 2022 General Elections, the Commission reviewed and captured the GPS coordinates of the Gazetted Registration Centres.

During the year under review the Department undertook the activities in the Table 24.

Table 24: Equity in Representation

Key Output	Performance Indicator	Planned Target 2021/2022	Actual Achievement 2021/2022	Remarks
Equitable Representation	Number of updated counties' boundary data	47	38	9 Counties to be concluded in the Financial Year 2022/23

	Perecentage of maps processed	100	100	County Constituency Ward Special maps
	Number of staff trained on emerging electoral boundary technologies	15	15	Continuous training

3.6 Key Result Area #6: Strengthening Strategic Operations

Strengthening Strategic Operations underpins the need to enhance human resource capacity, strengthen corporate governance, re-engineer business processes, secure a conducive work environment, strategic supply chain needs, and institutionalize learning and knowledge-based decision making for a sustainable financial resource base. This section covers six focus areas as listed below;

- (i) Finance management,
- (ii) Supply chain management,
- (iii) Electoral systems and infrastructure,
- (iv) Human resources and administration,
- (v) Research and development and
- (vi) Risk management.

3.6.1 Focus Area #1: Supply Chain Management

The identification of Commission's procurable needs is vital in planning and implementation of its programmes and activities throughout the electoral cycle. This ensures streamlining of the procurement processes, logistics, warehousing and disposal in the day-to-day operations of the Commission. During the year under review, the Commission accomplished the following as shown in Table 25.

Table 25: Supply Chain Management Activities

Key output	Performance indicators	Planned Targets	Achieved Targets	Remarks
Compliance with PPADA	Number of Procurement plans prepared	11	11	Directorates prepared and implemented their Procurement plans. Submitted Consolidated Plan to the National Treasury and PPRA

Distribution of General Election Materials	Number of counties distributed with Strategic and Non-strategic Materials	47	47	The Strategic partnership with Postal corporation of Kenya ensured successful delivery of procured election materials.

3.6.2 Focus Area #2 Finance Management

Financing of the Commission's activities enables it to deliver on its mandate by ensuring adequate budgetary allocation and prudent management of resources. During the year under review, the following were accomplished: -

Table 26: Finance Management

Key output	Performance indicators	Planned Targets	Achieved Targets	Remarks
Compliance with PFMA	Number of Financial Statements prepared	5	5	4 quarterly reports and Consolidated Financial statements Prepared and submitted

Commission Workplan	Percentage of Budget Execution	100	84.78	Savings arose from competitive procurement of Goods and services and low turnout during voter registration
	Number of work plans prepared	18	18	Directorates prepared and implemented their Normal and GE work plans

3.6.3 Focus Area #3 Electoral Systems and Infrastructure Sustainability

The Commission has incorporated the use of technology in its processes to enhance efficiency towards service delivery. This has enhanced the Commission's capacity in provision of electoral technology advisory, development and implementation of ICT policies and procedures, management of election technology and infrastructure.

In the year under review, the following were accomplished.

Table 27: Electoral Systems and Infrastructure Sustainability

Key Output	Performance Indicator	Planned Target 2021/2022	Achieved Targets 2021/2022	Remarks
ICT infrastructure scaling and optimization	Percentage completion on the renovation of the centralized KIEMS warehouse.	100	90	Implementation of remaining components is ongoing.
	Number of county offices connected to the wide area network (WAN) infrastructure	30	30	Extension of wide area network infrastructure (WAN) to 30 county offices improved communication.
	Percentage upgrade of the ICT security infrastructure	100	100	Upgrade of the ICT security infrastructure has improved confidentiality, integrity and availability of technology.

During the period under review, the Commission was allocated Kshs. 23,165,529,000 in both recurrent and development expenditures. The Commission received exchequer of Kshs. 19,641,465,000 and other internally generated income of Kshs. 143.45 million totalling to Kshs. 19.785 billion. The funds were utilized to fund the conduct of the by elections, general election activities, purchase of election equipment's and materials and construction of five (5) office buildings and other administrative operations of the commission.

The Commission continued to settle 2017 General Election pending bills amounting Kshs. 429.611,000. However, due to budgetary constraints, the Commission was unable to settle pending bills of Kshs 2.05 billion as of 30th June, 2022. Outstanding bills of Kshs.182 million were accrued during the year under review. A detailed listing of these bills has been provided as an annex to this report.

Compliance with Statutory Requirements

The Commission complied with its tax obligations and all its statutory obligations in the implementation of its mandate.

Key Projects and Investment

The Commission continued the construction of five (5) county warehouses in Garissa, Wajir, Isiolo, Kakamega and Machakos counties. The Commission had planned to construct its own building to house its head office to enhance security and efficiency in its operations. However, the project was not funded during the period under review. The Commission will continue to pursue funding to implement the project since the Commission headquarter offices are currently located in a rented building.

which is not conducive for its operations due to congestions, uncontrolled movement in and out of the offices and disruptions to the business enterprises during heightened political activities.

Risk Management Activities

The Commission has put in place a risk management framework for risk identification and mitigation. Further, it has embedded risk management in all its planning, execution, evaluation and business continuity arrangements.

Some of the key risks facing the Commission include:

- **Strategic Risks:** These are risks that affect the ability to carry out the long-term goals and objectives as articulated in the IEBC Policy.
- **Compliance Risks:** These are risks associated with non-compliance with applicable laws and regulations which could result in litigation and conflicts of interest.
- **Political Risks:** This is a major risk factor affecting staff performance and safety. These risks could also be attributed to political perception of major political parties on the Commission's role.
- **Reputational Risks:** The risk of significant negative public opinion and or perception that results in a critical loss of confidence in the institution.
- **Financial Risks:** The risk of financial loss that may include ineffectiveness of internal controls, financial processes for reporting, budgeting, and fiscal stewardship as well as the monitoring of full financial and performance reporting. These risks may also affect the ability to acquire assets, technology, etc.
- **Technological Risks:** This a possibility of failure of technology employed by the Commission in the conduct of elections and rapid technological change resulting to obsolescence.
- **Operational Risks:** The risk of direct or indirect loss or inability to provide core services, especially to stakeholders, resulting from inadequate or failed internal processes, resources (including human resources, equipment malfunction), and systems.

Statutory and Financial Obligations

As at the 30th June, 2022, the Commission had pending bills amounting Kshs. 2.051 billion.

Financial Probity and Governance

To obtain assurance on compliance and prudence in the management of the election finances, the Commission has collaborated with the relevant statutory oversight bodies and continues to undertake internal financial reviews whose outcome enables the Commission to strengthen its operational and financial systems.

ENVIRONMENTAL & SUSTAINABILITY REPORTING

The Independent Electoral and Boundaries Commission is a credible electoral management body that strives to meet the democratic aspirations of the people of Kenya.

Our Mission is to conduct transparent, efficient, and impartial elections; and undertake boundary delimitation for equitable representation and sustainable democracy.

In its endeavors to achieve its mandate, the Commission is guided by the following principles and core values:

- Adherence to the rule of law - We conduct our businesses within the law.
- Inclusivity - We respect gender, race, class and disability in the conduct of electoral activities.
- Integrity - We conduct our affairs with utmost honesty.
- Accountability - We endeavor to be responsible for our actions.
- Teamwork - We work collaboratively as colleagues to achieve Commission goals.
- Innovativeness - We transform the electoral process by exceeding the expectations of Kenyans.

(i) Sustainability strategy and profile

The Independent Electoral and Boundaries Commission is a Constitutional body established under Article 88 of the Constitution of Kenya and is a body corporate pursuant to Article 253 of the Constitution of Kenya.

The Constitution of Kenya 2010, IEBC Act 2011 and the Elections 2011 have been the greatest sustainability pillars of the Commission and the achievements of its mandate. The National Assembly has enacted and or amended several Statutes that enable the Commission to carry out its mandate. The role played by the State and Non-State Stakeholders and Partners in the election process have sustained the operations and the implementation of the key commission strategies.

To effectively sustain its operations, the Commission has put in place structures, strategies, policies and procedures to support its operations. In the achievement of its mandate, the commission has anchored its operations and strategy in three main pillars: Managing of elections, institutional transformation and enhancing of public trust.

The Commission, over the years has developed well-trained and experienced staff on matters election operations and technology. To this end, it has received benchmarking delegations from Africa and beyond. Further, it has well established structures in its county and constituency offices spread across country.

(ii) Employee welfare

The Commission policy on recruitment ensures the Commission's commitment to ensuring that the one third-gender rule is observed as well promotes affirmative action to ensure diversity in the workplace. The Commission's Shortlisting and Interview Guidelines ensure that recruitment processes are geared towards observing

and promoting regional and gender balance.

Currently the percentage gender distribution is 35% female and 65% male, while the ethnic representation within the Commission is forty-three (43) ethnic tribes out the forty-six (46) existing ethnic communities. The commission had seven workers with disabilities of which two were female while 5 were male. The Commission supports officers to be in good professional standing with their professional bodies by facilitating their Annual Subscription and Continuous Professional Development (CPD) training. In addition, the staff are trained in career development courses, specialized skills and seminars and workshops.

The Commission has a robust Performance Management System (PMS) that include Target Setting and the Annual Performance Appraisals. The Commission also recommend honors, awards, and issues commendation letters in recognition of exemplary performance.

(iii) Market place practices

The Commission operates in an environment with a wide range of risk profiles, making free and fair election competitive focus in a very competitive elective political environment. Election code of conduct provides the commission and the public with details of malpractices that may impair competitive elections. It provides guidelines, addressing such issues as election fraud, bribery, violence, conflicts of interest, among other election irregularities.

The Commission has consistently applied the most competitive procurement method based on the prevailing procurement laws and regulation with emphasis on maximizing value for money and equity in the procurement processes. The Commission also conducts due diligence on third parties to ensure that it engages the right supplier in its procurement.

The Commission has established responsible supplier relationship by strict compliance to the public procurement and asset disposal processes and principles as laid down in the public procurement and asset disposal legislative framework. Further, the Commission has enhanced its communication as a tool in bettering the management of the existing suppliers. The use of online procurement modules has further enhanced efficiency hence increased trust in our procurement process. This has made suppliers to have a better understanding of the Commission's business goals.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

The Commission's overriding Corporate Social Responsibility theme is "Connecting with the Voter".

In the period under review, the Commission undertook several CSR initiatives most of with other humanitarian initiatives.

- (i) Donation of sanitary towels to various Schools.
- (ii) Donation of sanitizers and facemasks to schools and the public.
- (iii) Donation of books, Geometrical Sets, Pens and White Board to schools.
- (iv) Sponsoring football tournaments for schools.
- (v) Visiting children homes and donating of foodstuffs.
- (vi) Open-air markets clean up.
- (vii) Wall painting in a school.
- (viii) Donation of soft drinks and snacks to a school of the deaf.
- (ix) Painting of school gate and donation of iron sheets for two classrooms.
- (x) Donation of IEBC branded hand washing tanks and soaps to schools.
- (xi) Cleaning of the environment.
- (xii) Donation of football materials for a local football team.
- (xiii) Donation of water tanks to schools.
- (xiv) Distribution of IEBC branded bags and pens to students and teacher.

Further, the Commission has institutionalized the management of school student council elections, where the Commission uses the opportunity to inculcate democratic tenets in the learner's minds. The school council elections are regularly coordinated by the Commission's County and constituency offices in their respective electoral area.

STATEMENT OF THE ACCOUNTING OFFICER RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012, requires the Accounting Officer to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Commission as at the end of period and of its operating results. It also requires the Accounting Officer to ensure that the Commission maintains proper accounting records that disclose, with reasonable accuracy at any time, the financial position of the Commission. The Accounting Officer is also responsible for safeguarding the Commission's assets.

The Accounting Officer is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (IPSAS) and in a form that complies with the standards prescribed by the Public Sector Accounting Standards Board (PSASB). This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, safeguarding the assets, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The Accounting Officer accepts responsibility for financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012. The Accounting Officer is of the opinion that the financial statements give a true and fair view of the state of financial affairs of the Commission and of its financial position. The Accounting Officer further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Accounting Officer to indicate that the Commission will not remain a going concern for at least the next twelve months from the date of this statement.

REPORT OF THE CHAIRPERSON

I am pleased to present the Commission's annual financial statements for the period ended 30th June 2022.

The Commission successfully conducted six (6) by-elections during the 2021/2022 financial year. These were for the position of a Member of National Assembly and five Members County Assembly. The Commission further undertook Enhanced Continuous Voter Registration (ECVR) exercise of which 2,743,594 new voters were registered, Register of Voter verification and candidate's registration for the 2022 General Election.

In the 2021/2022 financial year, the Commission was allocated Kshs. 22.9 billion under the recurrent vote and Ksh.125 million under development vote. The Commission received exchequer amounting Kshs. 19.5 billion for recurrent expenditure and Kshs.111.6 million for development expenditure. Further, income of ksh.143 million was generated internally from the candidate's registration fees and disposal of boarded items.

Looking forward to the National Treasury to provide adequate budget allocation and timely release of exchequer to fund the settlement pending bills amounting Kshs. 2.0 billion some of which continue to attract interest due to non-payment.

I wish to register and applaud the Members and Staff of the IEBC as well as all partners and stakeholders for their support towards fulfilling Commission's mandate as enshrined in the Constitution of Kenya.

In Conclusion, I sincerely convey the gratitude of the Commission to the National Government, the National Treasury, Parliament, partners, stakeholders and staff of the Commission for their continued support towards fulfilling our mandate.

W.W. Chebukati

Chairperson

REPORT OF THE SECRETARY/CHIEF EXECUTIVE OFFICER

The Independent Electoral and Boundaries Commission, hereby, submits its annual financial statements for the period between 1st July, 2021 and 30th June, 2022. During this period, the Commission was allocated a total of Kshs. 22.941 billion for recurrent expenditure and Kshs. 125 million for development to facilitate implementation of the Commission's programmes, activities and projects. Further, the commission internally generated incomes amounting to Kshs. 149 million from candidates'/nomination registration fees, and auction and disposal of boarded items.

The annual financial statements comprise of the Statement of the Financial Performance, Statement of the Financial Position, Statement of Changes in Net Assets, Statement of Cash Flows and Statement of Combined Budget Execution. The Commission has continued to ensure probity and prudence in the management of its resources in accordance with the provisions of the Public Finance Management Act (PFM), 2012 and the attendant regulations. The Statements of the Commission are also prepared in conformity with the International Public Sector Accounting Standards (IPSAS) on prudent financial management and reporting.

Legally, the mandate of the Commission is derived from Article 88 of the Constitution of Kenya, 2010 and statutory instruments that include; the IEBC Act, 2011, the Elections Act, 2011 and the attendant election regulations. The Commission is responsible for enforcing the Electoral Code of Conduct and monitoring compliance relating to the nomination of candidates by parties. It also conducts investigation of electoral malpractices in Kenya.

More so, the Mission of the Commission is to conduct transparent, efficient, and impartial elections; and undertake boundary delimitation for equitable representation and sustainable democracy. This is reflected in the conduct of the elections and the election related activities in a manner that consistently delivers the desired results. During the reporting period, the Commission successfully conducted six (6) by-elections consisting of (1) Member of the National Assembly and five (5) Members of County Assembly. In addition, the commission conducted three (3) elections for other constitutional bodies.

Besides, the Commission conducted enhanced continuous voter registration, updated the roll/register of voters which realised 2,743,594 new voters, verification of register of voter in which 5,334,483 verified their details. Consequently, the registered number of voters stood at 22,464,755 as at 30th June, 2022. Additionally, the commission registered 16,105 candidates for 2022 general elections.

It is prudent to also note that public trust and participation are key pillars in the Commission's strategic direction aimed at instilling confidence and trust in the electoral processes among citizens. In cognizance of this, the Commission has continued to

work very closely with various electoral stakeholders to ensure transparency and inclusivity in the electoral process. During the reporting period, the Commission accredited 389 observers for the by-elections, and 1,517 as long-term observers for the general election.

As regards risks management and assurance, the Commission recognizes that the two are important corporate governance pillars. To this end, the Commission has embedded a robust risk management framework in all its operations and functions. Furthermore, the Commission has put in place continuous risks assessment and mitigation strategies to enhance internal controls and compliance. The Commission has also undertaken enterprise wide risks management trainings, established a Risks Register and continuous review of the Commission's processes and operations.

Finally, I wish to sincerely appreciate the Commission Chairperson, Commissioners and members of staff for their relentless dedication and commitment in the realization of the Commission's set-out goals and objectives. I am also obliged to all partners and stakeholders for their immense support towards the fulfilment of the Commission's mandate as enshrined in the Constitution of Kenya, 2010. Indeed, building a better electoral body demands concerted efforts from both the internal and external actors. I request everyone to carefully read and analyse these statements and provide invaluable feedbacks to gear the Commission forward.

SIGNIFICANT ACCOUNTING POLICIES

For the Year Ended 30th June, 2022

1. Statement of compliance and basis of preparation – IPSAS 1

The Commission's financial statements have been prepared in accordance with and comply with the International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the Commission and all values are rounded to the nearest thousand (Kshs 000) which may in some cases make the added decimal balances to vary. The accounting policies have been consistently applied in all the years presented.

The financial statements have been prepared on the basis of historical cost, unless where stated otherwise. The cash flow statement is prepared using the indirect method. The financial statements are prepared on accrual basis.

2. Summary of Significant Accounting Policies:

(a) Revenue Recognition - Revenue from Non-Exchange Transactions (Fees, Charges and Fines) – IPSAS 23

The Commission recognizes revenues from nomination fees and fines when the event occurs, and the asset recognition criteria are met. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue. Other non-exchange revenues are recognized when it is probable that future economic benefits or service potential associated with the asset will flow to the Commission and the fair value of the asset can be measured reliably.

Transfers from Other Government Entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Commission and can be measured reliably.

Interest Income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

(b) Budget Information – IPSAS 24

The annual budget is prepared and presented in a single statement to determine the needs of the Commission. The Commission has adopted the standard which requires budget information to be presented in the financial statements.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Year Ended 30th June, 2022

(c) Taxes – IAS 12

Income tax

Income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the area where the Commission operates and generates taxable income.

Current income tax relating to items recognized directly in net assets is recognized in net assets and not in the statement of Financial Performance. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(d) Property, Plant and Equipment – IPSAS 17

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the Commission recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

The depreciation rates are 30% for Computers, 25% for motor vehicles, 12.5% for office equipment and 12.5% for furniture and fittings on reducing balance basis.

(e) Intangible Assets – IPSAS 31

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange.

Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

The useful life of the intangible assets is assessed as either finite or indefinite.

The amortization rate for intangible assets of the Commission is 30% on reducing balance basis.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Year Ended 30th June, 2022

(f) Research and Development costs

The Commission expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the Commission can demonstrate:

- The technical feasibility of completing the asset so that the asset will be available for use or sale.
- Its intention to complete and its ability to use or sell the asset.
- How the asset will generate future economic benefits or service potential.
- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.

Following initial recognition of an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in surplus or deficit.

(g) Provisions – IPSAS 19

Provisions are recognized when the Commission has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Commission expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

(h) Contingent Liabilities

The Commission does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

(i) Contingent Assets

The Commission does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Commission in the notes to the financial statements.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Year Ended 30th June, 2022

Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

(j) Nature and Purpose of Reserves

The Commission creates and maintains reserves in terms of specific requirements. Commission to state the reserves maintained and appropriate policies adopted.

(k) Changes in Accounting Policies and Estimates – IPSAS 3

The Commission recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

(l) Employee Benefits – IPSAS 25

Retirement Benefit plans

The Commission provides retirement benefits for its full-time employees. It operates a defined contribution plan which is a post-employment benefit plan under which the Commission pays fixed contributions into a separate Commission (fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable. The Scheme is administered by ICEA Lions Asset Management Ltd.

(m) Foreign Currency Transactions – IPSAS 4

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

(n) Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Year Ended 30th June, 2022

(o) Comparative Figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

(p) Significant Judgments and Sources of Estimation Uncertainty – IPSAS 1

The preparation of the Commission's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Commission based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Commission.

Such changes are reflected in the assumptions when they occur (IPSAS 1.140).

Useful Lives and Residual Values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by the Commission.
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes.
- The nature of the processes in which the asset is deployed.
- Availability of funding to replace the asset.
- Changes in the market in relation to the asset.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions is included in the note on provision for gratuity.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are where applicable, discounted to present value where the effect is material.

(q) Subsequent Events – IPSAS 14

There have been no events subsequent to the financial year end with a significant impact on the financial statements.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Year Ended 30th June, 2022

(r) Inventories – IPSAS 12

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

After initial recognition, inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost.

Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

3. Adoption of New and Revised Standards

(i) Relevant new standards and amendments to published standards effective for the year ended 30 June 2021.

Standard	Effective date and impact:
Standard: IPSAS 39: Employee Benefits	Applicable: 1st January 2018 The objective of IPSAS 39 was to create convergence to changes in IAS 19 Employee benefits. The IPSASB needed to create convergence of IPSAS 25 to the amendments done to IAS 19. It was intended to ensure accurate information relating to pension liabilities arising from the defined benefit scheme. Not applicable to IEBC. Pension scheme that is administered by trustees.

(ii) New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2021.

Standard	Effective date and impact:
Standard: IPSAS 40: Public Sector Combinations	Applicable: Applicable: 1st January 2019 The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3-Business combinations and combinations arising from non-exchange transactions which are covered purely under Public Sector combinations as amalgamations. Not Applicable to IEBC.

18. Related Party Transactions

Entities and other parties related to the entity include those parties who have abilities to exercise control or exercise significant influence over its operating and financial decisions.

The Government of Kenya is the principal financier to the Commission's activities by way of exchequer releases.

During the period under review, the Commission had transactions detailed with related parties as follows:

Description	2021/2022	2020/2021
	Unaudited	Audited
	Shs 000	Shs 000

19. Budget Information & Other Disclosures

The National Assembly approved the original budget for 2021/2022 financial year in June 2021 and the Commission was allocated Kshs. 22,940.591 million for the Recurrent Vote and Kshs.125 million under Development Vote.

The Commission's budget execution statement was prepared on a cash basis and informed by the actual income and expenditure as reflected in the IFMIS system.

The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. The amounts in the financial statements were adjusted from the cash basis to the accrual basis.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended 30th June, 2022

The material variances in the budget execution statement can be explained as follows:

(a) Significant Savings/Unutilized budget of Kshs.3.48 Billion.

There was significant unutilized budget of Kshs.3.48 billion. This was because of the reduction of polling stations from the initial planned 53,300 to 46,229 polling stations. Polling stations are determined by the actual number of voters who register before an election and has a relationship with quantity of election materials, human resources and services required.

(b) AIA Collections (149%)

Appropriation in aid earned by the Commission as at 30th June, 2022 was mainly from nomination fees/ candidate registration fees received ahead of the August General Elections.

The amounts of appropriation-in-aid (AIA) receivable is largely dependent on the number of candidates seeking elective posts and number of elections held in a period.

(c) Routine Maintenance for Boundaries Activities –8%

Most of routine maintenance procurement processes had not been concluded as at 30th June, 2022.

20. Contingent Assets

IPSAS 19 prescribes the accounting treatment for provisions, contingent liabilities and contingent assets and defines their identification and recognition.

During the financial year, the Commission issued letters of credit to acquire additional KIEMs and associated software and ballot papers whose deliveries and contract closure were expected to be concluded in the subsequent financial year. Consequently, the Letters of Credit were secured by use cash collateral and the values of cash collateral were as tabulated below:

Cash Collateral Account	Event	Amount	Forex Rate as at 30.6.2022	Amount (Kshs.)
Co-op Bank Collateral Account University Way Branch.	Supply and delivery of KIEMs Kits and Associated software & accessories.	USD 7,445,346.9	117.8324	877,303,094.06
KCB Bank Collateral Account University Way Branch.	Supply and Delivery of Ballot papers.	EUR 2,560,023.2	124.0203	317,494,845.27
Total Value of Contingent Asset				1,194,797,939.33

During the previous financial years, the Commission was awarded costs amounting to Kshs.59.854 million (taxed costs) and Kshs. 205.060 million (capped costs).

However, collection of capped costs requires taxation before determination of actual amount collectable. Further, indigent litigants acting as surrogates for politicians out to cushion themselves against award of costs filed some petitions.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended 30th June, 2022

21. Contingent Liabilities

IPSAS 19 prescribes the accounting treatment for provisions, contingent liabilities and contingent assets and defines their identification and recognition.

The Commission has been sued in various cases with the potential exposure of at least Kshs. 157.351 million to pay various general election pending bills, which have not been validated, by the National Treasury's internal audit department or have pending court cases. The Commission is a defendant or co-defendant in various election petition litigations and claims. The outcomes of these litigations and claims are yet to be determined.

During the financial year, the Commission entered into a contractual arrangement or commitment to acquire additional KIEMs and associated software and ballot papers whose deliveries and contract closures were expected to be concluded in the subsequent financial year. The value of contingent liability as at the reporting date is as tabulated below:

Firm Name	Event	Amount	Forex Rate as at 30.6.2022	Amount (Kshs.)
Smartmatic International Holding B.V.	Supply and delivery of KIEMs Kits and Associated software & accessories.	UDS 7,445,346.9	117.8324	877,303,094.06
Inform Hellas	Supply and Delivery of Ballot papers.	EUR 2,560,023.2	124.0203	317,494,845.27
Total value of Contingent Liability				1,194,797,939.33

22. Employee Benefits: Defined Contribution Scheme

IPSAS 25 prescribes the accounting and disclosure requirements for employee benefits and establishes the matching principle that the cost of the employee benefits should be recognized in the period in which the employee provides the services to the entity and not when they are paid or become payable.

The Commission runs a defined contribution pension scheme. The assets of the scheme are held in a separate trustee administered fund, which is funded by contributions from both the Commission as the employer at 15% and employees at 7.5% of basic salary. The scheme is currently managed by ICEA Lion Asset Management.

The Commission's contributions to the above scheme are charged to the income and expenditure account in the period to which they relate.

The main purpose of the scheme is the provision of retirement benefits for members upon retirement from the founder's service and relief for the dependants of deceased members.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

	Unaudited	Audited
No. of Permanent & Pensionable Staff	914.00	846
Total	914.00	846

24. Entity Tax Status

The Commission is a government agency, fully funded by the government and is therefore tax exempt. The Commission pays taxes as per the regulations.

25. Subsequent Events

The Commission is not aware of any matter or circumstances arising after the end of the financial year, not otherwise dealt with in the financial statements, which would significantly affect the financial position and the results of its operations as laid out in these financial statements.

Auditor General Report for 2018/2019 & 2019/2020 financial years.	Contingent Liability: Failure to factor in possible future obligations relating to legal fees on the pending court cases and claims in the financial statements.	It would not be possible to have a realistic estimate of the probable cost since the costs are determined upon conclusion of the cases. The Commission is of the view that the costs are reasonably ascertained when judgements are made.	DF	Resolved	2022/2023
Auditor General Report for 2018/2019 & 2019/2020 financial years.	Account Payables: failure to settle bills during the year to which they relate distorts the financial statements for the year, and adversely affects the provisions for the subsequent year to which they have to be charged.	The pending bills were accrued due to lack of exchequer for payments, which had been planned for and processed up to the Internet Banking level The Commission has made several efforts to secure the budgetary provision to facilitate settlement of the said bills in addition to settling them as first charge. CORPORATE GOVERNANCE STATEMENT

The Commission is accountable to the public and stakeholders through Parliament for ensuring that it complies with the highest standards of corporate governance and operational ethics. The Commission has embraced corporate governance by promoting the right corporate culture and values.

The Commission exercises reasonable care to ensure that the management of the Commission is carried out in the best interest of the citizens of Kenya. The overall management of the Commission is the responsibility of the Commissioners.

The Commission recognizes the need to conduct its affairs with integrity and in accordance with generally accepted corporate practices and internationally developed principles of corporate governance.

The Commission

The size, composition and appointment of the Commission is prescribed by Article 250 of the Constitution and by the IEBC Act 2011. There were seven Commissioners who worked on a full-time basis during the year under review. Each member was appointed to serve for a single term of six years.

The Commission is well composed in terms of range and diversity of skills, knowledge, age and experience in various sectors which makes it effective and provides an appropriate skills balance for the oversight of the Commission's mandate.

The Commission Committees and their Responsibilities

The Commission delegates certain functions to committees without abdicating its own responsibilities. The Commission has developed a committee structure that assists in the execution of its duties, powers and authorities. The Committees are appropriately constituted drawing membership from amongst the Commissioners with the appropriate set of skills and experience and directors co-opted from various directorates.

The Commission has in place an independent Audit Committee that is chaired by a non-executive member. It also has two independent audit committee members, from the National Treasury and Ministry of ICT and one Commissioner.

The Audit, Risk and Compliance Committee oversees the internal audit activity charged with the responsibility of continuous review and providing assurance on effectiveness of the Commission's Governance, Risk and Control.

Mortgage and Car Loan Committee

During the 2021/2022 financial year, the IEBC Mortgage and Car Loan scheme was managed by the following members:

Members	Responsibility
Obadiah Keitany	Chairperson
Lorna Onyango	Vice Chairperson

Dr. Eroo Mele	Member
Sahara Ibrahim	Member
Salome Oyugi	Member
Arnold Wekesa	Member

Impartiality and Independence of Members

Every member of the Commission and employee shall perform their functions impartially and independently without influence from any person, authority or organization.

Disclosure of Conflict of Interests

If a member of the Commission or an employee is directly or indirectly interested in any matter before the Commission and is present at any meeting of the Commission at which the matter is the subject of consideration, he/she shall as soon as practicable disclose the fact and shall not take part in the consideration or discussion of, or vote on, any questions with respect to the matter or be counted in the quorum of the meeting during consideration of the matter.

A member or employee whose personal interest conflicts with their official duties shall in writing, declare as soon as practicable the personal interests to their supervisor or other appropriate person or body and comply with any directives given to avoid the conflict and refrain from participating in any deliberations with respect to the matter.

MANAGEMENT DISCUSSION AND ANALYSIS

Operational and Financial Performance

The Commission's Mortgage and Car Loan revolving scheme is managed by Housing Finance Corporation of Kenya and was set up in March 2017.

Since its inception, one hundred and seven (107) members of staff have benefited from the scheme. Seventy four (74) have been issued with mortgages valued at Kshs. 566.823 million whereas thirty-three (33) members of staff have been issued with car loans valued at Kshs. 49.330 million.

	No. of applications made	Successful applications
Mortgage Loan Scheme applications	97	74
Car Loan Scheme applications	37	33
Total	134	107

As the end of 30th June 2022, the scheme had earned Kshs. 16.053 million from high interest earning bank balances as compared with Kshs 19.573 million earned in the similar period the previous year. Further, the Scheme earned interest on loans amounting Kshs.11.887 million as compared with Kshs.11.925 million earned for the similar period ended 30th June, 2022.

Compliance with Statutory Requirements

The Scheme complied with its tax obligations and all its statutory obligations in the implementation of its mandate.

Key Projects and Investment

The Commission has continued to invest in the mortgage and car loan schemes for the staff. This is intended to provide affordable housing for the staff while at the same time facilitating the staff to conveniently commute to and from work.

Risk Management Activities

The Commission has put in place a risk management framework for risk identification and mitigation. Further, it has embedded risk management in all its planning, execution, evaluation and business continuity arrangements.

Some of the key risks facing the Scheme include:

- **Strategic Risks:** These are risks that affect the ability to carry out the long-term goals and objectives as articulated in the Scheme Policy.
- **Compliance Risks:** These are risks associated with non-compliance with applicable laws and regulations which could result in litigation and conflicts of interest.
- **Financial Risks:** The risk of financial loss that may include ineffectiveness of

internal controls, inadequate funding, inability to service the loans and delay in financial reporting due reliance on third party financial information. The delayed funding may also result in the commission's inability to fund all the applications hence the delay in issuing of loans and acquisition of the properties.

- **Operational Risks:** The risk of direct or indirect loss or inability to provide core services, especially to stakeholders, resulting from inadequate or failed internal processes, resources and systems.

Statutory and Financial Obligations

In the period under review, the scheme was able to satisfy all the applications, except where the necessary information to support compliance and due diligence was not available. Further, the Commission complied with all the necessary laws and regulations applicable in the management of the funds.

Financial Probity and Governance

To obtain assurance on compliance and prudence in the management scheme finances, the Commission prepares the financial statements for the Mortgage and Car Loan Scheme which are be subjected to both internal and external audit. The audit findings and recommendations enable the Commission to strengthen the Scheme operational and financial systems.

To obtain assurance on compliance and prudence in the management of the Scheme finances, the Commission has collaborated with the relevant statutory oversight bodies and continues to undertake internal financial reviews whose outcome enables the Commission to strengthen its operational and financial systems.

STATEMENT OF THE ACCOUNTING OFFICER RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012, requires the Accounting Officer to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Commission as at the end of period and of its operating results. It also requires the Accounting Officer to ensure that the Commission maintains proper accounting records that disclose, with reasonable accuracy at any time, the financial position of the Commission. The Accounting Officer is also responsible for safeguarding the Commission's assets.

The Accounting Officer is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (IPSAS) and in a form that complies with the standards prescribed by the Public Sector Accounting Standards Board (PSASB). This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, safeguarding the assets, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The Accounting Officer accepts responsibility for financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012. The Accounting Officer is of the opinion that the financial statements give a true and fair view of the state of financial affairs of the Commission and of its financial position. The Accounting Officer further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Accounting Officer to indicate that the Commission will not remain a going concern for at least the next twelve months from the date of this statement.

Marjan Hussein Marjan

Commission Secretary/CEO

REPORT OF THE CHAIRPERSON

It gives me great pleasure to present the Commission's Staff Mortgage and Car Loan Scheme annual financial statements.

Staff welfare is a major concern for robust Commission culture. In this respect, the Commission has continued to implement the Staff Mortgage and Car Loan schemes in line with Government regulations.

In the 2021/2022 financial year, the Commission was allocated Kshs.58.362 million to finance the staff mortgage scheme. No provision was made for the Car Loan Scheme due to the budget constraints. Since inception, a total of hundred and seven (107) members of staff have benefited from the mortgage and car loan schemes.

The Commission ensured prudent financial management and reporting in line with Public Finance Management Act (PFMA) 2012, Government Financial Regulations, 2015 and International Public Sector Accounting Standards (IPSAS) resulting in efficient and effective administration of the Scheme.

I encourage all staff members to optimally utilize the facility for improvement of their welfare and to remain resilient and focused in the performance of the Commission mandate.

My gratitude goes out to the National Government, the National Treasury, Parliament, the Judiciary, other Commissions and Independent Offices, fellow Commissioners and the staff of the Commission for their support towards fulfilling our mandate.

SIGNIFICANT ACCOUNTING POLICIES

For the Year Ended 30th June, 2022

1. Statement of compliance and basis of preparation – IPSAS 1

The Commission's Staff Mortgage and Car Loan Scheme financial statements have been prepared in accordance with and comply with the International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the Commission and all values are rounded to the nearest thousand (Kshs 000) which may in some cases make the added decimal balances to vary. The accounting policies have been consistently applied in all the years presented.

The financial statements have been prepared on the basis of historical cost, unless where stated otherwise. The cash flow statement is prepared using the indirect method. The financial statements are prepared on accrual basis.

2. Summary of Significant Accounting Policies:

(s) Revenue Recognition - Revenue from Non-Exchange Transactions (Fees, Charges and Fines) – IPSAS 23

The Commission recognizes revenues from nomination fees and fines when the event occurs, and the asset recognition criteria are met. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue. Other non-exchange revenues are recognized when it is probable that future economic benefits or service potential associated with the asset will flow to the Commission and the fair value of the asset can be measured reliably.

Interest Income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

(t) Budget Information – IPSAS 24

The annual budget is prepared and presented in a single statement to determine the needs of the Commission. The Commission has adopted the standard which requires budget information to be presented in the financial statements.

(u) Taxes – IAS 12

Income tax

Income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the area where the Commission operates and generates taxable income.

SIGNIFICANT ACCOUNTING POLICIES

For the Year Ended 30th June, 2022

Current income tax relating to items recognized directly in net assets is recognized in net assets and not in the statement of Financial Performance. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(v) Provisions – IPSAS 19

Provisions are recognized when the Commission has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Commission expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

Contingent Liabilities

The Commission does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

Contingent Assets

The Commission does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Commission in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

(w) Nature and Purpose of Reserves

The Commission creates and maintains reserves in terms of specific requirements. Commission to state the reserves maintained and appropriate policies adopted.

(x) Changes in Accounting Policies and Estimates – IPSAS 3

The Commission recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

SIGNIFICANT ACCOUNTING POLICIES

For the Year Ended 30th June, 2022

(y) Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

(z) Comparative Figures

Comparative figures for the year have been provided.

(aa) Significant Judgments and Sources of Estimation Uncertainty – IPSAS 1

The preparation of the Commission's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Commission based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Commission. Such changes are reflected in the assumptions when they occur. (IPSAS 1.140)

(bb) Subsequent Events – IPSAS 14

There have been no events subsequent to the financial year end with a significant impact on the financial statements.
